We pledge to reduce our CO2 footprint to Zero by adopting the following eco-friendly measures:

SUSTAINABILITY IS THE FIBRE OF OUR COMPANY

Sustainability is about meeting today's needs without compromising on the ability of future generations to do the same.

Using building blocks such as: reduced material consumption, recyclable solutions, renewable materials, and new technologies and business models we are developing sustainable packaging concepts and economical solutions. We pledge to reduce our CO2 footprint to Zero by adopting the following eco-friendly measures:

OUR CORE VALUES

We keep a keen focus on our four key value propositions while designing packaging solutions: **Innovation, customisation, partnership, and sustainability.**

INNOVATION

We make food stand out with our superior know-how of the market and modern means of technology

CUSTOMISATION

We understand that one box doesn't fit all. That's why we offer custom-made solutions catering to different food needs.

PARTNERSHIP

We promise to bring dedication and invest in a long-term partnership with you as a customer by offering unparalleled customer service.

SUSTAINABILITY

We work to benefit the generations that come after us, by focusing on using green initiatives that don't put a pressure on the environment.

1. SUSTAINABLY SOURCED PAPER

Our cups are made with paper sourced from certified plantation forests. Paper is both renewable and recyclable, contributing to a circular economy where materials can be reused to produce new products

2. WATER-BASED INKS

We only use water-based inks for printing our cups, which are free from harmful toxic chemicals, and are made from natural substances.

3. RECYCLABLE IN NATURE

Made from PE-lined paper board, a material that is easier to recycle than milk cartons, they provide a valuable resource that can be reused, reducing the amount of waste sent to landfills. Even our aluminium products are 100% recyclable and can be used in all applications- microwave, oven, grill, freezer.

BEVERAGE CUPS

OUR ADVANTAGES

We offer the most comprehensive range of cups in many sizes, many types and for many purposes- to hold hot, cold, super chilled beverages. With exceptional quality and stunning aesthetics, these bio-degradable cups are sure to boost and create a positive brand impact.

WHAT MAKES OUR CUPS DIFFERENT?

SUSTAINABLY SOURCED PAPER

These cups are made with paper sourced from certified plantation forests. Paper, being a renewable and recyclable product contributes to a circular economy where materials can be reused to create new products.

RECYCLABLE

Made from PE-lined paper board, a material that's easier to recycle than milk cartons, these cups reduce the amount of waste sent to landfills, and thus can be reused.

PERFECT FIT LIDS

Lids are essential to keep liquids secure. Our lids are microwave-safe, freezer-safe, and made with 100% food-grade plastic.

BRANDING & CUSTOM PRINTING

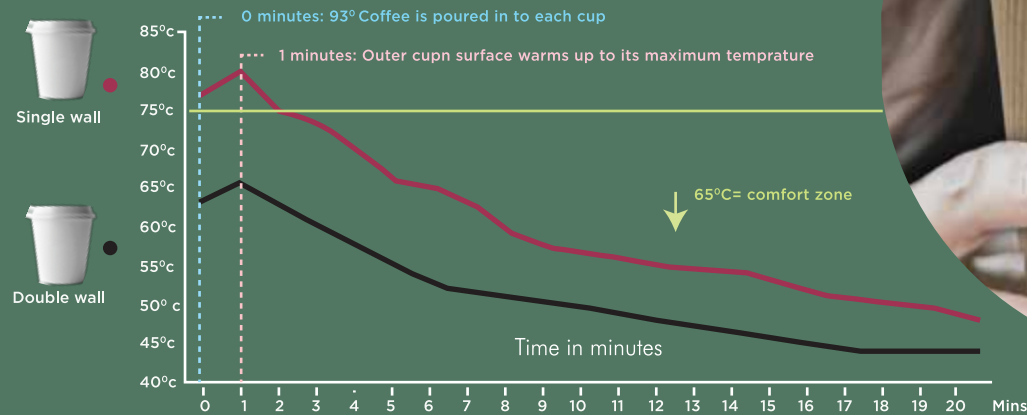

The cups can be designed based on your preferences, whether it's a certain pattern or look and feel you are looking at, or imprint a unique visual identity or company logo on them.

WHICH CUP SIZE DO YOU NEED?

Every cup is designed to keep the customer's drink hotter or cooler for longer, so that they can enjoy every sip without compromising on temperature.

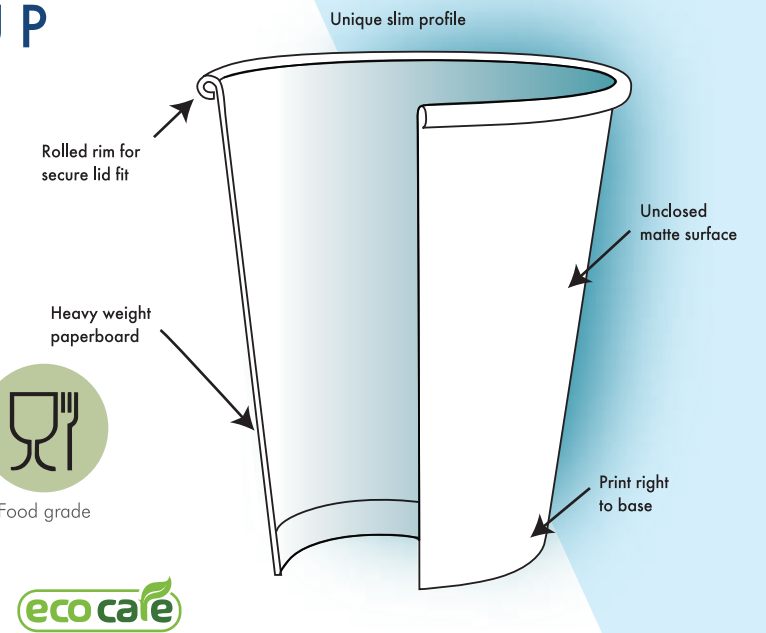

These cups come with single, double or rippled layers of insulation- each offering a specific level of heat protection, for added comfort of your customers. Each cup is made for easy degradation and recycling purpose. These cups available in white, craft and printed varieties and in many sizes ranging from 2.5 to 16oz.

SINGLE WALL CUP

Attractive, lightweight and biodegradable- single wall cups offer a firm grip and adequate heat protection while holding hotter beverages like tea, coffee or soups. The rolled rim offers a secure lid fit, thus minimising the chances of the drink spilling over. These high quality, durable cups can also be customized as per your preference, and are available in various sizes.

SANDWICH WRAPPER

Line or wrap your food with 100% compostable Custom Food Wrapping Paper! It's a perfect addition to any takeout box, plate or cabinet display. We use uncoated FSC-certified paper (It's made of pure wood pulp, with grease proof property) and printed with water-based food safe inks.

Aluminum foil paper has good thermal conductivity and plasticity, so that aluminum foil paper and other foods can be packaged in the packaging paper to have heat preservation and folding performance. And use food-grade packaging base paper and food-grade compound glue; the surface of the aluminum foil can be printed with exquisite patterns and the back can be expressed in hexagons, triangles, squares, waves and other shapes. It's very easy to use and help you save time to cut and raise working efficiency.
